

SPOT HALL OF FAME

**Winner of the
Best Contours
BRAIN SUB-SITE**

**DR ANDREY
SHKURATOV**

Radiation Oncologist
Hadassah Medical Moscow
Russia

Please give us a brief introduction about yourself.

My name is Andrey Shkuratov. I'm a Radiation Oncologist in Hadassa Medical Clinic in Moscow.

Why did you decide to register for the SPOT Contouring Workshop 2021?

When I have registered to congress, I immediately decided to participate in SPOT Contouring Workshop because I think it is a good opportunity to improve your skills and compare your results with the experience of other participants and experts.

Share with us what was most satisfying/meaningful to you about your participation in the pre-course contouring exercise.

The most important thing for me was the wide variety of localisations for contouring. It includes the most common patients' cases, which we meet almost everyday.

"I think it is a good opportunity to improve your skills and compare your results with the experience of other participants and experts."

Describe any painful experiences you have had (if any) in the course of this exercise, and how you overcame them.

The biggest problem was the lack of time for contouring, because of the count of patients in our clinic that time.

What did you think your chances were of winning the contouring competition, and how did you feel when your name was announced during the prize-winners ceremony?

It was really unexpected :)

What advice would you give to participants of future SPOT courses to increase their chances of winning the competition?

I recommend using the newest atlases and articles for better understanding the margins of contouring volumes.
